

DAILY LIVING AIDS

A selection of innovative and practical items for use in and around the home, designed to promote independent living. We have a diverse range of products from Pedal Leg Exercisers to Cutlery designed to ease the effects of Arthritis and Parkinson's Disease. These products will ease the hurdles faced by the elderly with items that most of us take for granted everyday.

THINGS TO CONSIDER

- Always consider the user's physical condition. Do they have Bending, Reaching or Gripping problems.
- Is the product required for Eating and Drinking, Dressing or Gripping and Turning items.
- Does the user suffer from Arthritis or Parkinson's Disease? This may influence the size of the gripping handle or the weight distribution of the product.
