Pressure relief seating.

This chair offers the comfort of air cushion seating.

Air bladders are fitted in strategic places to minimise the development of bed sores (bed ulcers).

Wooden hand knuckles •

Fitted with four pressure relieving air cushions that distribute the patient's weight evenly and assist in preventing bed sores (bed ulcers)

Elasticised storage pocket •

Backrest •

- reclines to a semi-bed position
- removable backrest

Rear locking castors •

Fabric

- surecheck 2-way stretch fabric
- ultra soft and pliable
- water proof
- anti-bacterial
- fire retardant
- odour repelling

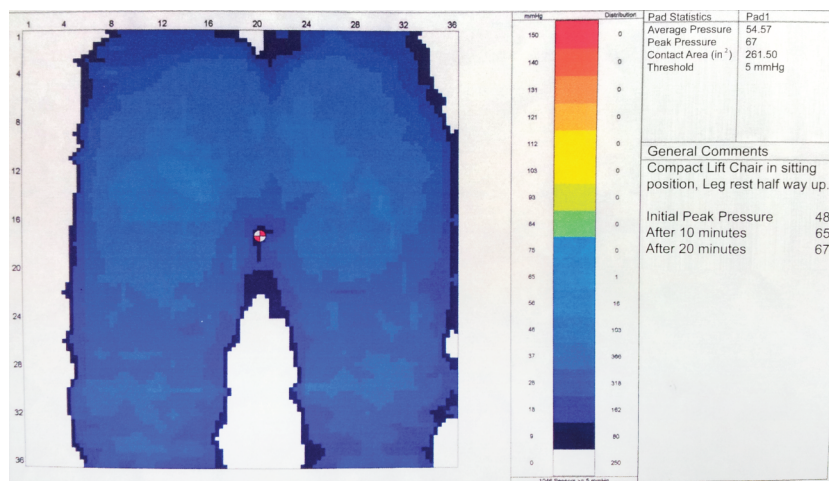

Patient reclined position

- Wall saver mechanism prevents chair touching the wall when reclining

- Reclining function converts the chair into a semi-bed position

Air pressure management system ensures even distribution of the patient's weight

Patient lift position

- Chair lifts patient into an upright position.
